Ms. Nieskens reported that they finished the year very busy. The High School will be down 3 students because of a smaller freshman class coming in. We have already pre-enrolled 2 students for next year. The Middle School will be up 16 because of a large 6th grade class coming in. We will be holding an enrollment day on August 21st for new students. Also, there will be a rising camp for the incoming 6th graders

on August 23rd and 24th. Students will walk their schedules, learn to open their lockers and if they attend they receive free school supplies.

Review the Classified Salary/Hourly Matrix

Mr. Sullivan presented to the board the classified salary/hourly matrix to the board. He informed them that we have not had anything to go by to determine these salaries. He has been giving the raises as he sees fit

and would like to have something in place. We looked at matrixes from other districts in the area that are comparable to our district. He has divided them up into different categories and starting wages are in place for each category. Every year it will be a \$.15 to \$.30 raise unless the base salary goes up and then it will be a larger raise. It was suggested that head maintenance be added to the Clerk/Business Officer category because you cannot hire a head maintenance employee for \$14.00. It was also suggested that an employee is given an increase if they are doing a good job. The board was reminded that we need to look at the budget and treat all employees fairly. Another suggestion was that the base rate be looked at the same year that we negotiate with the teachers. There was no action on the item, Mr. Sullivan will rework the matrix and present it to the board at the August meeting.
